Naloxone Nasal Spray

09

Open the container.
Remove the nasal spray and
place it within easy reach.

Lay them on their back.
Support the back of the neck,
let head tilt back.
Clear away anything you
see blocking their nose.

Hold the spray as shown —
first two fingers either side
of the nozzle, thumb ready
to push the plunger.
**Don't press to prime or test
before use.**

Gently insert spray nozzle
into one nostril. Press firmly
on the plunger until it clicks
and gives the dose. Remove
the nozzle from the nostril.*

*If possible: note which
nostril you used.
